A FABULOUS DISCOVERY, Worth Millions to the Human Fam-

ily-Celery as a Care.

The habitual daily use of this vegetable such more beneficial to man than most people The habitual daily use of this vegetable is much more beneficial to man than most people magine. The writer, who is familiar with its ritrues, is acquainted with many men and women who from various causes have become to much affected by nervousness that when they stretched out their hands they shook like aspen leaves, but by a moderate use of celery they became as strong in nerve as other people. We have known others to be cured of palpitation of the heart. To this we may add that we received of Dr. Henley, of Fortland, Oregon, a bottle of "Celery, Beef and Iron." By close analysis we state the preparation called Celery, Beef and Iron is what it is represented to be, absolutely pure, and every one engaged in labor weakening to the nerves should use "Celery, Beef and Iron." We find also according to the formula received, each bottle is composed of Liebig's extract of beef, extract of celery, and pyrophosphate of iron with condensed wine. These combined we pronounce the best known remedy for any disorder of the nerves or neuralgia. The most delicate nerves, even of birds, we give celery, how much better will it subserve the wants of the human family?—Prf. B. H. Openheigen in Journal of Chemistry.

The Government Moving at Last. Washington, March 12th.—The following irculars have been sent to all United States Attorneys and Marshals: DEPARTMENT OF JUSTICE

WASHINGTON, March 12, 1884. To District Attorneys and Marshals of the United To District Attorneys and Marshals of the United States: By direction of the President I have to inform you that it is reported that certain persons are aiding in perpetrating heinous crimes by shipping to foreign ports explosives dangerous in the highest degree to life and property. No proof has been adduced that this rumor is founded on fact, and the President cannot believe its truth. The honor of this nation, however, requires that it should not be open to the imputation, unfounded though it be, of the slightest appearance of tolerating such crimes, whether to be committed against our people or those of other countries. Your attention is therefore called to Sections 5353, 5354, 5355, 4278 and

Governor Bate delivered the welcoming address, and spoke eloquently of the resources of Tennessee and the South, and extended a hearty invitation to men of the North to help develop them.

The audience was large, including many ladier. Letters were read from Governor Hub-bard, of Texas, Proctor Knott, of Kentucky, and Jarvis, of North Carolina, ex Governor Brown and others. Governor Crittenden, of Missouri delivered an effective speech. He said there was nothing political in this immi-gration movement. There was no politics in the South when such movements take hold of the people. In twenty years the South would be the greatest manufacturing section of the whole country. The youths of the present would live to see the fruits of this meeting. The West would join hands with the South in this work. President McWhirter then delivered a formal welcome to the delegates and livered a formal welcome to the delegates and members of the Association. A Woman Stabbed to Death by Her Sister.

OPELIKA (Ala.), March 12th.—News has reached here of a terrible tragedy which occurred a day or two ago in a remote district of Coffee county. Mrs. Harvey and Mrs. Hughes, two sisters, lived on adjoining farms. A few days ago Mrs. Harvey's cow did some days ago Mrs. Harvey's cow did some days ago many the garden of Mrs. Hughes, where. lamage in the garden of Mrs. Hughes, where-ipon the latter drove the animal out, striking across the back with a stick. When this acident came to the knowledge of Mrs. Harregidence of her sister armed with a sharp butcher-knife. When about fifty yards from the house Mrs. Hughes met her and attempted an explanation. Mrs. Harvey immediately made a lunge at her sister with the house and a lunge at her sister with the large and an explanation. knife, sending it at one thrust through her heart. As the wounded woman fell her sen ran up with a stick and struck his aunt with it on the head. The infuriated woman then turned upon her sephew and began cutting at him. The boy's screams attracted the atten-tion of some neighbors, who rushed up and stopped the progress of the bloody work.

Mrs. Harvey was taken to Elva jail, where she will be held for trial. The boy is so badly rounded that his recovery is not probable. Convention of Wool-Growers. DENVER (Col.), March 12th .- A large numer of delegates were present this morning at the opening of the Wool-Growers Conven-tion, representing Colorado, Kansas, Minne-sota, New Mexico, Utah, Wyoming, Idaho and Nebraska. To-day's session was consumed in speech-making and organization. The feeling is unanimous that the passage of Morrison's bill will prove fatal to the wool industry of this country. Important action is expected at to-morrow's session. Seven and a half million sheep, or an annual production

Grant Falling Away. New York, March 12th.—The Journal of Commerce's regular Washington correspondent, usually careful in his statements, has the following: A Republican member of Congress has just returned from Fortress Monroe. He says he was shocked to see how much General Grant had changed during his recent illness. From newspaper resents he much General Grant had changed during his recent illness. From newspaper reports he bad supposed Grant was getting well, but he found the old commander falling away. His face was twisted out of shape, inflammatory rheumatism is tending toward the upward portion of his body, and his whole appearation of his body his whole appearation of his body, and his whole appearation of his body his whole appearation of his body. ance is that of a man whose time upon earth is limited to a few years at best. STATUARY FOR THE CAPITOL.

Some time since D. O. Mills purchased from the eminent sculptor Larkin G. Mead the statuary known as the Columbus group, presented the same to the State, and it now occupies a central position in the rotunda of the Capitol. It is carved in beautiful Italian marble, is an elegant piece of sculpture, and cost \$30,000. It has been described minutely in these columns. Mr. Mills was one of the beautiful to give expression to such a will be a ballot or viva voce, the result is the celebrated sculptor, and present the State of California with the best of the martyred President, Abraham Lincoln. The following letter, which was received by the Governor yesterday, explains itself:

letter, which was received by the Governor yesterday, explains itself:

To his Excellency, George Stoneman, Governor of California—Bear Sir : I have read with great pleasure in the London Times and some of the Paris papers an account of the inauguration ceremonies held in Sacramento on the occasion of the presentation of the Columbus group by D. O. Mills, through his brother, Edgar Mills, to the State of California, and the complimentary remarks bestowed upon Mr. Mills and the artist by the Governor in accepting the gift. You are reported to have said, in the course of your remarks, "you regretted that public spirit did not often go hand in hand with financial success, and that the Executive was not more frequently called upon to renderthanks in the name of the commonwealth on such occasions." It has occurred to me to say to you, that I have a marble bust of Abraham Liceoln, of colossal proportions, cut in the finest quality of marble and complete in every way, that I should be proud to have occupy a place in the Capitol of California. The bust is in the city of New York, and if order the capitol of California. Per contra, when it cannot be determined for what the elector voted the ballot cannot be counted. Now II is contended, could in a few days be delivered in Sacramento. My price for it boxed and delivered on the cars in New York is \$2,500. Cl'dy | be no confusion of understanding. THE FACTS OF THE CASE.

Article V. of the Codified Statutes relating to this city and embracing her charter, provides that when the City Trustees deem it for the best interests of the city to create any debt or obligation, they must submit the "propositions" to the voters for their consent to the levy of a "special tax" for the purposs indicated, and shall give fifteen days notice of the time and place of the special election on such "propositions." The law then reads: "Should two-thirds of all the votes case or nolled at such deption, he in favor of seek to evade. cast or polled at such election be in favor of the propositions named," etc., etc., then the officers may contract and creats the debt,

etc. By this law FOUR THINGS ARE EVIDENT.

Ballots are not votes. In the levee election only votes can be considered, not ballots tion tickets or ballots, was only a matter of economy and convenience, and did not mak it a joint question with the selection of officers. Abbott's law dictionary says "a vot is the choice of an elector expressed in writing or print." Obviously, then, a paper ex pressing no choice is no vote.

In People vs. Pease, 27 N. Y. Reps. 57,
vote is thus defined: "A vote is but the expression of the will of the voter, and whether

earliest settlers in Sacramento, was one of same—either is a vote."

From all this it is clear that the standar her pioneer citizens, and here it was he laid the foundation for his colessal fortune. California has many other wealthy citizens, some of whom will no doubt accept the offer of the "propositions" specially submitted.

That the levee tax is defeated because there were cast for three candidates for Mayor on Tuesday 4,127 votes, and for the levee tax 2,681, which is not two-thirds of 4,127, it re-2,081, while is not two-inites of 4,121, 16 feed quiring 2,752, or 71 more than were cast.
Upon what hypothesis the vote for Mayor—
4,127—is taken as the standard to measure the levee tax by, is inscrutable.
But the aggregate vote for and against the levee tax was 3,710 votes cast on that "proposition" and the standard to be levee tax was 3,710 votes cast on that "proposition" and the standard to be standard

IN A WISCONSIN CASE,

THE MARYSVILLE ROAD.—The Marysville road is in rather rough condition for travel just north of this city, but still is not impassable. The bridge built last fall, north of the willows, is in bad shape, the approaches having been washed away. It looks as though it would be necessary to add another span to it next season.

So far as this is concerned it is to be noted, First, the "proposition" was to "provide income." Second, "the assent of two-thirds cerely congratulated upon the adoption of the proposition to fortify the levee defenses. In the qualified electors thereof "clearly applies to those "voting at an election," not all the proposition to fortify the levee defenses. In favor of the system of progress and prudence 2,681 votes were cast out of 3,710 polled upon the proposition.

There are many at the age of thirty to sixty who are troubled with too frequent evacuation of the bladder, often accompanied by a slight smarting or burning sensation, and a weal-ening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sedimenwill often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish bue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness.
